TAMPERE / STUDENT-LED STARTUP CONCEPT

AI DIGITAL FRONT DESK & GROWTH PLATFORM

Websites + Real phone AI + Orders + Bookings + Growth insights

26	**test products in live API**
2	**tested voice channels**
7	**auto-start services**

THE PROBLEM

Busy venues may miss incoming calls, juggle separate software for reservations and orders, and struggle to turn site visits into measurable business.

OUR ANSWER

A multilingual AI front desk connects customer calls and immersive commerce to one business API, operations dashboard and merchant growth tools.

THE CONNECTED CUSTOMER JOURNEY

DISCOVER Search / Maps › **ENGAGE** Site / AI voice › **CONVERT** Orders / tables › **GROW** Analytics / CRM

WHAT IS REAL TODAY

Maison Éclair prototype: interactive storefront, Gemini Live via browser and Asterisk test call, catalog integration, order/booking flows, manager dashboard, transcript and Telegram alerts.

Not yet validated: paying customers, commercial revenue, tenant automation or production FusionPBX.

ILLUSTRATIVE SCALE SCENARIOS • €249 AVERAGE MONTHLY SUBSCRIPTION

Y1	**20 merchants**	**€59.8k ARR**	0–2 FTE*
Y2	**100 merchants**	**€298.8k ARR**	2–4 FTE*
Y3	**350 merchants**	**€1.046m ARR**	5–8 FTE*

THE ASK Introductions to 5–10 local restaurant pilots • university mentoring • business validation • innovation-funding guidance

* Job numbers and year-end ARR are scenarios, not commitments or recognised annual revenue.
